

Privacy Notice

International Congress for Ataxia Research (ICAR) is jointly organized by Friedreich's Ataxia Research Alliance (FARA), National Ataxia Foundation (NAF), Ataxia UK and Ataxia Global Initiative (AGI). This Privacy Notice outlines the types of personal data collected through the ICAR website and how that information is used.

FARA is the lead organization for the 2026 conference and will follow its privacy policy in sharing your information with NAF, Ataxia UK and AGI. You can read FARA's privacy policy [HERE](#). The information collected through the ICAR website enables our organizing partners to effectively plan, coordinate, and execute all aspects of the conference. This includes managing communications, processing registrations and abstract submissions, and ensuring a seamless experience for all participants.

Information Collected

- **IP Address:** Automatically collected to enhance website security and performance.
- **Contact Information:** If you opt in to receive updates, your name and email address are collected to send you relevant communications.
- **Registration and Abstract Submission Data:** If you register for the conference or submit a research abstract, the following information may be collected:
 - Full name
 - Email address
 - Mailing address
 - Job title
 - Organization or institution
 - Industry affiliation
 - Payment details (for transaction processing)
 - Abstract content and related research information

Cookies

ICAR Website uses cookies to optimize its website and measure the incoming traffic.

Cookies are small text files which are stored on your device when you visit our website. The data collected by using cookies is used to improve the website and offer more relevant and interesting information to the users and to ensure the functionality of the website.

Analytical data from users who visit our website is also collected. This data is used to measure how much the website is visited and which pages are most interesting to users.

IP-addresses are collected to improve our website's security and availability.

Privacy Policies of Partner Organizations

For more detailed information on how each organizing body handles personal data, please refer to their respective privacy policies:
